Electronic Rent Payment thru PayPal

We accept electronic rent payment via echeck or debit/credit card through PayPal. PayPal is an online payments system that supports online money transfers. If you do not have a personal PayPal account, you may set one up at www.paypal.com. Once you have a personal PayPal account, you may use it to send monthly rent payments to cambridgerentals@yahoo.com via **"Friends & Family"** ONLY!

Payments made using your personal checking account do not incur any PayPal fees, as long as they are sent using the "Friends and Family" option. PayPal does charge a fee for payments made using your debit or credit card. Currently, this fee is 2.9% + \$0.30 of the payment amount. PayPal may also charge fees to convert a payment to US Currency, if necessary. PayPal sets and imposes these fees in accordance with their own policies and Cambridge Rentals does not pay or receive these fees.

It is important that you understand this option is being offered as a convenience to our tenants. As such, Cambridge Rentals WILL NOT be responsible for any fees incurred in making your rent payments through PayPal. Sending all payments via the "Friends & Family" option will ensure that you, as the tenant, incur ALL fees associated with this service, if any. Submitting a payment as "paying for an item or service" will cause Cambridge Rentals to be charged a fee. Should this happen, said fee will be recorded and expected to be paid with the next month's rent payment OR be deducted from your deposit. In the event your failure to submit payment correctly results in Cambridge Rentals being charged a fee more than 2 times, you will no longer have the option to pay your rent electronically.

Put your apartment address in the "note" section
